Nomination Committee

Nominations

Presidium

Hanna Sjö

Hanna Sjö studies physics and has been in Lund since the autumn 2016 and has already been active in many parts of the union. She has been a member of the gender and equality committee, the education committee, member of the UTOPIA committee, member of the party committee in GLuFS and a student representative of the educations board at her department. Additionally, Hanna has experience from other student organizations in Lund like Helsingkronaspexet and Lundakarnevalen.

To work full time within the presidium of LUNA sometime in the future, is something Hanna has been thinking about for a long time. But it was quite recently she came to the insight that this is what she wants to do the upcoming academic year.

As a part of the presidium Hanna would work for the science students with the issues that they want. She would prioritize to meet the science students where they are and help them with whatever they would need. She believes in communication, both in order to spread the work of Luna so that it will benefit the students but she also believes communication is one important part when handling any type of crisis.

As a person Hanna is well organized who can handle multiple posts at the same time without affecting the quality of her work. The ability of multitasking will be a valuable property as part of the presidium of Luna. The nomination committee thinks it's positive that Hanna has a broad experience from LUNA and the student life in Lund since it is necessary for the post as presidium. The nomination committee do also admire her working capacity.

Union Board

Theodor Blom

Theodor is currently the vice president of the union. The amount of time and dedication he has put towards the union is a lot. Before his time in the presidium, Theodor has been active in GLuFS and other parts of the union like the party committee. Despite his long commitment to the union, Theodor still feel that he wants to work more for the union. For example he would like to work more with the internal organization and other projects. The nomination committee believes Theodor still has more projects to work on and would be a great asset to the union board.

Ante Forsgren

Ante has previously taken on a great responsibility as the chairperson of MUR and member of the Health, Environment and Safety Committee. Ante has also been member of the parliament for quite some time. Ante is fearless when it comes to expressing his opinions, the nomination committee thinks this is a great ability when it comes to the work of the union board. He is used to working in a group and he is not strange to the workload and understands the responsibility that the union board craves. The nomination committee would like to place Ante as part of the union board.

Elvira Källberg

Elvira studies her second year of environmental science and she is currently vice chairperson of MYS. She has also been a part of the information committee, parliament, Health, Environment and Safety Committee and the mentors committee. Elvira feels that she now have enough experience of the union to join the board, the nomination committee agrees with Elvira and thinks she will be a good assets in the union board. In the union board Elvira would like to work towards a more outgoing union and to make it more marketable.

Elvira has displayed a huge work ethic and capability to handle heavy workloads, this along with the new insight that she would bring as a new member makes the nomination committee certain that she will be a fantastic addition to the union board.

Hanna Thosteman

Hanna has been a member of the union board for the past year and acquired valuable experience and insight on how it works. She still feels that she can do more in the union board and are therefore applying for the post again. Hanna has also been one of the spokesperson of the gender and equality committee and as well the chairperson for the mentor committee. Hanna has proven that she is a reliable person who works hard for everyone with a vision in mind for the whole union. The Nominations committee believes that Hanna will use both her experience and creativity to forward the union work.

John Wimarsson

John has previously showed qualities of a leadership and creativity with his engagement in the mentor committee. He has worked in different combinations and positions in the union and has always taken a great responsibility to make a good job. One of the thing that John would like to work within the board is a system for documentation, since it will save a lot of time for the unions member and make the unions work easier. The nomination committee would like to see John continue his creativity in the union board.

Auditor

Cecilia Sköld

Cecilia Sköld has been one of the auditors of the previous years and has been a big support for the union and especially the union presidium. The nomination committee thinks that Cecilia has made a good job during the years and would like to see her continue as a auditor for the upcoming year as well.

Niklas Sköld

Niklas Sköld has been one of the auditors of the previous years and has been a big support for the union and especially the union presidium. The nomination committee thinks that Niklas has made a good job during the years and would like to see her continue as a auditor for the upcoming year as well.

Webmaster

Sebastian Pfaff

Sebastian Pfaff has been the webmaster during the last year but he feels that he wants do more for the union's webpage. He has already made the webpage work faster and has some further plans for the development of webpage and he is also willing to work with the Latex-templates. With Sebastians experience and engagement, the nomination committee thinks that he is the perfect candidate for the post as webmaster.

Quartermaster

Elise Karlsson Faudot

Elise wants to contribute and help the union with their work, she has been the MYS representative in the corporate relation committee during the previous semester but she now wants to have the post as quartermaster. As a person Elise is good at cooperating with other people, which is a good quality for the post as quartermaster. The nomination committee thinks that Elise will make a good job as the new quartermaster of the union.

Ballmaster

Alexandra Roslund

Alexandra has been involved in the UTPOIA committee and has taken a great responsibility in the work with the ball. She also has a lot of experience in organizing and partaking in big events such as Malmö pride. Alexandra does also have some ideas on how to improve the ball even further. The nomination committee feels that Alexandra has a good knowledge of UTOPIA and would like to nominate her as a ballmaster.

Victoria Pehrsson

Victoria is studying her first year at the environmental science program and would like to become more active in the union. She has, during the year been a member of the party committee in MYS and she also has some experience in organizing a ball from her upper secondary school. In Lund Victoria has also attended a few balls. As a person she is both energetic and commanding which is valuable for the post as ballmaster. The nomination committee would like to see Victoria as ballmaster.

Corporate Relations Committee - Member

Vassily Kornienko

Vassily has, during his 5 years in Lund been active in many different areas within LUNA and he is used to arranging different kind of events. To work with labour-related issues is not something that is new to him, due to his work at previous Atlas. The nomination committee sees great potential in Vassily's new strategies of acquiring companies to Atlas. That, combined with his experience from arranging and visiting previous market fairs makes Vassily to a great resource for the upcoming work of the corporate relations committee.

Amanda Ledell

Amanda has great interest in joining the committee, she is currently the chairperson of MUR and has previously been active in organizing and plan the mathstudents day. She is used to planning and taking responsibilities. For this post she would love to see a better ATLAS event and much more inspiration lectures for the students. She feels dedication to this position as she herself is in need of what the committee offers. She has been active in LINK which is the Lunda financial society and believes that she has some ideas from her engagement in the organization to implement in the corporate relations committee. She has good communications skills and seems to understand the amount of time and energy that the position entails. The nomination committee thinks Amanda has showed dedication through her previous commitment and think she will make a god job in the committee.

Education Committee - Chairperson

Rebecca Forsberg

Rebecca has been a part of the union board throughout last year, during which she came in close contact with questions regarding education quality and education politics. Rebecca would like to continue working with education questions and she has ideas and plans. She would for example like to "boost" the image of the committee, to make the committee an obvious part of LUNA. All in all, Rebecca has a lot of experience in the education related matters that are required for this position, and the Nomination Committee truly believes she will do a good job.

Gender and Equality Committee - Spokesperson

Ida Bonnevier Wallstedt

Ida started her geology studies last autumn and has been active in the Gender and Equality Committee since then, Ida has good experience from other related organizations. She thinks it's important that the union works with gender, equality and LGBTQ questions, but she herself would also like to work with other intersectional issues. Ida also wants to continue with the popular "JoL-evenings" but she also thinks that the concept can develop or change. The nominations committee thinks Ida would be a good spokesperson since she is not afraid to express her opinions and thoughts. She is also a good listener that thinks that everyone in the committee should be available to come to speak if they wish. For this reason she would excel as the spokesperson for the gender and equality committee.

Health, Environment and Safety Committee - Chairperson

Elise Karlsson Faudot

Elise has lots of experience committing her to this position. She has had some useful background knowledge during her study abroad in United States and really wants to drive through the connection between university and it's students. She has lots of future goals that she can achieve through this position. The nomination committee would like to see Elise as part of the committee.

Information Committee - Member

Owen Liu

Owen Liu has great knowledge of the union, he has been active in both his study council MUR and in LUNA. During the current year he has been one of the board members. Owen now wishes to be active in the information committee since he has a big interest in the information flow, he also has some ideas that could improve the unions paper "Zenit". The nomination committee feels that Owen is motivated for the post and we think that he will make a great job within the information committee.

Mentor Committee - Chairperson

John Wimarsson

With two years already under his belt, one of which was spent as the mentor general, John has proved his worth and commitment to the Mentor committee. As an incredibly organised person with experience not only from the mentor committee but also the information committee, the nomination committee believes that John will thrive in the role as Chairperson.

Mentor Committee - Member

David Andersson

David is very passionate about the welcoming of new student to the University. He has been a mentor for one semester and a member of the Mentor Committee for one year and for the upcoming year he is ready to take even more responsibility within the Committee. The nomination committee values David's other engagements in both GLuFS and the Physics and Laser show which makes him a suitable representative for Science and the Science Union.

David is a very caring person and he attaches great importance of the wellbeing of both mentors and novishes. About future novisch periods he want to work for more continuity in the structure from year to year and to involve student councils and Science Union committees to a greater extent.

Anna Lindau

For Anna the novisch period is a lot about making friends. A personal interest she has of working with the novisch period consists of both having a good time socializing and also seeing people meeting each other and become friends. According to Anna, the most important part of the novisch period are the novishes. They should always feel included and that they have someone to talk to if they want to. To create this opportunity Anna is the person who engage others and start talking to the person who stands for himself.

The nomination committee finds Anna's ability to listen and reflect to be very important when working in projects like the mentor committee is doing. She also has some interesting ideas of how to get more novishes active within the union.

Alexander Ekman

Alexander has been a member of the mentor committee for quite a long time and he is very experienced in welcoming new students. He has started up some work with auormate the point system in the novisch period which he is very eager to finish. Alexander has great energy and more ideas to offer for the novisch period. He is that kind of person who has an opinion about everything regarding the novisch period and at the same time he also has an idea of how to improve those things that do not work. The nomination committee thinks Alexander should be a part of the mentor committee also since he can take hard decisions and also take the role as a leader.

Timothy Williams

Timothy has been active in the welcoming of new student, ever since he was a new student himself. The joy and all he learns from the novisch periods are reasons why he candidates for one more year of involvement in the Mentor Committee. The nomination committee want to raise his safety thinking. Preventive work to protect the Novisch period against accidents is a very complicated, but important task and Timothy is a person who prioritizes this.

Timothy thinks that on of the most important functions of the novisch period is to get new students active in the Union. His ideas to fulfill this will be of great importance for the involvement in the Science Union according to the Nomination Committee.

Elvira Källberg

As an active member in the mentors committee and a part of last year's successful novich period Elvira still thinks theres thing that can be improved, some of the main things is the planing along with a more diverse set of activities. Her previos experience in other places have shown that she acquires the skills necicery for that change, for exampl the Information committee. She is also one of the more calm and colective members of the curent Mentor committe witch keeps it balanced. The Nomination committee belives that Elvira gives the Mentor committee a lot of stability and is there for nominating her for the possition.

Daniel Radivojevic

A novisch period without engaged novisches and mentors is a failed novisch period. But that is not a risk with Daniel in the mentor committee. Daniel knows his stuffs when it comes to "how to hype the novisch period" and he is also great at when it comes to arranging events. This is something he has done as a part of the party committee and GLuFS besides his work in the mentor committee the previous year. The nomination committee values Daniel's ability to get things done with a high quality. His will and dedication to make a good job are also factors which motivated this nomination to the mentor committee.

Lina Warntoft

There are few persons who love the work of the Mentor Committee as much as Lina does. The nomination committee sees a great importance of having an energetic person who "lives up the mood" during the novisch period. Along with the willing of taking responsibility and ability to get things done, this forms qualities which makes Lina to a perfect fit to the Mentor Committee, according to the Nomination Committee. Lina has been a mentor twice and been part of the Mentor Committee for the latest novisch period. She wants that everyone should feel included during the activities and values team building activities very high.

Jesper Nielsen

Jesper has a good understanding of the novich period and got plenty of ideas of how it can be improved, for example Jesper would like to see the different study councils integrating more with each other compared from previous years. Jesper has shown to take great responsibility and he will prioritize the work in the mentor committee above other commitments. The nomination committee have a strong belief that Jesper will be a great addition to the mentors committee with his great determination and strive for a more united union.

Party Committee - Member

Hanna Aulin

Hanna was a part of the party committee last year and has, during that time, learned a lot and would like to continue working with the committee. She has a few "non-sittning" ideas that she would like the party committee to try in the future. Additionally, as a chemistry student, Hanna would like to further engage chemistry students in the union through the party committee. The nomination committee sees Hanna as an asset to the Party committee, believing she will bring with her both the experience of last years committee, but also ideas on further activities the committee could arrange.

Victoria pehrsson

She would be delightful to engage more in the student union and has lots of energy to bring as part of the party committee. She has previously been active in the party committee of her student body MYS and can develop that knowledge in the union. The nomination committee would love to see her bring her energy and positiveness to the student union party committee and develop more.

Sport Committee - Member

Svea Bertolatus

Svea believes that doing sports is one of the best ways to connect with people you don't study with, and as such, she would like to be a part of the committee that can motivate more students to do sports. While Svea hasn't been active a lot in the union, she has experience in planning and arranging sports activities and events. The Nomination Committee believe Svea to be a good addition to the Sport Committee.

Cornelia Flemming

Cornelia considers herself very knowledgeable in a couple of sports. Paired with some knowledge in exercise theory, she can bring something different to the sports committee. This, together with experience as a coach for youth basketball lends her a good toolset for the Committee, and as such, we chose to nominate her.

Chiara Monforte

Chiara wishes to experience the union part of student life, and since she has been doing sports her entire life, the Sports Committee would be a great fit. With a good vibe and attitude, and experience from being a voluntary worker at an international swimming competition we believe Chiara will be a good addition to the Sports Committee.

Pamela Huskin Okinedo

Pamela was a member of the sports committee the last year and as such can bring some necessary experience to the committee. She plays and has played a lot of different sports and has been a worker at Gothia cup. Pamela wishes to bring more people to the events that the committee arranges and get people from all study councils active. The nomination Committee believes Pamela will keep doing a good job in the sports committee and as such, we would like to nominate her.

Faculty Board

Einar Elén

Einar has showed his dedication and outstanding presentations in his previous works in the Faculty. He has been active in almost all faculty groupworks and has previously even been substitute when the ordinaries could not make it. He is suitable to handle stress as he has worked in different faculty positions at once and still be organised. The nomination committee would love to see Einar continue his dedication and bring more experience in the Faculty board.

Faculty Education Board

Einar Elén - ordinary

Einar has been working in the faculty for a long time and during this year focused on the Educational board. He has started a project that he would love to continue with. He has been to other workshops and discussion groups getting more insight and inspiration on ways to better yet the educational board not only that he has good contacts within the faculty and can handle a lot at once seeing from his previous positions in the faculty. The nomination committee would love to see Einar in the Educational board.

Ida Lunga - ordinary

Ida has a very substantial experience from working within the educational matters and issues, since she has been the president of LUNA she has also have been in many meetings with the faculty there Ida has worked to improve the students situations. The nomination committee sees Idas commitment for educational issues as an asset and together with all her knowledge about the faculty's way of working she would make a great job as a student representative in the Faculty education committee.

Rebecca Forsberg - ordinary

Rebecca has both experience and goals for the faculty education board, she has also been a member of the union board during this year and been active in GLuFS previous years. Rebecca has showed how organised and thoughtful she is

for the future quality of the student education. The nomination committee thinks Rebecca is well suitable to be in the faculty educational board.

Jesper Nielsen - alternative

Jesper is, despite his relatively short time in LUNA, engaged in many different parts of Luna. The mentor committee, GLuFS and the representative parliament to mention a few. Jesper is now willing to widen up his spectrum even more and start working with educational politics. The nomination committee finds Jesper's ideas about the educational environment to be developing and his insights about the Union reflects a true picture. For Jesper's future career in educational politics, the nomination committee finds the post as alternative in the faculty education committee to be a perfect starting platform.

Caroline Olsson - alternative

Caroline would like to be engaged in this position as she thinks there's more to change. She would like to better the system especially in areas of anonymous exams. She has previously been engaged as the chairperson of KERUB and has been active in a lot of educational meetings at her department.

Faculty Equal Opportunities Committee

Jenny Spik

Jenny Spik studies her first year at the physics-program and she has been active in the education board as a student representative at her own department and in the education committee in the union. She has as well experience for her study council at her upper secondary school. Jenny has always been interested for equal treatment questions and she now want to work with questions regarding gender and equality. The nomination committee secure to have Jenny as our representative in the Faculty Equal Opportunities Committee and we think she will make a good job in the committee and the work towards the faculty.

Faculty Library Board

André Nüßlein

André shows that he has future goals for the Faculty library that he wants to work on and is motivated in achieving these goals for the committee, he has previously been in the parliament. The nomination committee thinks that he is willing to put some time into the committee and its meetings, and even outside of the committee which shows his engagement and his goals. Qualities like these are great for someone in charge of this position.

Academic Appointments Board

Ida Lunga - ordinary

Ida has a lot of experience in working with student union matters and has been engaged in the both the faculty and the academic appointments board as an alternative. If she gets elected Ida would like to work so that the pedagogic qualities are valued higher when evaluating applying teachers. The nomination committee believes that Ida will make a good job in the academic appointments board and would like to nominate her as the ordinary representative.

Einar Elén - alternative

Einar is very diligent in his work and has future plans for the academic appointments board. He is suitable as he has been working on projects that relates to the academic appointments board before. The nomination committee would like nominate him as an alternative.

MAX-lab Board

Johan Lundquist

Johan Lundquist is currently studying his second year at the physics-program, he already has a good insight in the post since he works as a operator assistant at the max-lab. Johan also wants the max-lab to be more visible for the students, therefore he wants to work for a opportunity to have guided tour for the students of LUNA if there is some interest for that kind of event. The nomination committee thinks that Johan would be a good candidate for the post and we think that he would make a good job.

The Academic Society Scholarship Board

Isa Bengzon

Isa has been active in the union for a long time both in BÖÖL and in LUNA, as well as other student organizations in Lund like Bleckhornen. Isa believes the post as a representative in the The academic society scholarship board seems interesting and she would like to work with the applications that the scholarship board receives from students. The nomination committee believes that Isa has a good experience and insight in the student life in Lund, which make her the perfect candidate for the post.

In service,

Johan Edlund, Nomination committee chairperson of LUNA 17/18
