
Head of Corporate Relations and Faculty Career Council Candidature

Theodor Blom

April 12, 2018

Dear Parliament,

My name is Theodor Blom and I have the ambition of becoming the Head of Corporate Relations for the operational year of 2018/2019. With my experience from a wide range of positions within the union, I am confident I have the expertise to manage the Corporate Relations Committee and their work with ATLAS and other career related activities as well as the board duties related to the position.

In my active years within LUNA, I have been a part of a range of projects covering both the educational monitoring and the studysocial aspects. The Education Committee, the Party Committee and GLuFS to name a few. But my most recent position as Vice President of the union has given me the most insight and developed me as a person immensely. The position as Vice President allowed me to develop my organisational skills both work related and in the creation of various events.

In the position as Vice President I also gained some insight into the work of the Head of Corporate Relations and it became clear to me that the work of the Corporate Relations Committee and the Head of Corporate Relations is in dire need of some reorganisation and clearer guidelines for how to work. I believe I can bring the required skills to make this desired change and improve ATLAS and the other career related activities for now and for the future.

As a person I am detail oriented and organized allowing me to easily gain an overview and decide upon the next step with confidence. Additionally, I have an ease of learning being able to apply previous knowledge on new situations, taking on multiple roles along the way. The combination of having a detailed overview while putting myself in new situations makes me very driven and I can not wait to work for you and all our members in the upcoming operational year.

Thank you.

Yours Sincerely,
Theodor Blom
